Applied Geography 19 (1999) I–III

APPLIED GEOGRAPHY

www.elsevier.com/locate/apgeog

Index to Volume 19 (1999)

Authors and titles

Abu Jaber, N., *see* Dottridge, J.
Achieving lasting change in multi-organizational tasks: the case of flood warnings in Australia (Handmer et al.), 179–97
Agricultural practice, climate change and the soil erosion hazard in parts of southeast England (Robinson), 13–27
al-Eisawi, D., *see* Edwards, M.
al-Hussein, S., *see* Millington, A. C.
Anderson, W. P., *see* Dabi, D. D.
Application of artificial neural networks to the prediction of surface ozone concentrations in the United Kingdom (Spellman), 123–36
Applications and effects of geographical research in two quasi-judicial hearings about land-use changes (Phipps), 137–51
Applied geography: in pursuit of useful knowledge (Pacione), 1–12

The Badia programme: defining and overcoming constraints on sustainable development (Dutton and Shahbaz), 275–81
Badri, M., *see* Briggs, J.
Baptista Neto, J. A., Smith, B. J. and McAllister, J. J., Sedimentological evidence of human impact on a nearshore environment: Jurujuba Sound, Rio de Janeiro, Brazil, 153–77
Battikhi, A. M., *see* Tansey, K. J.
Bowler, I. R., Recycling urban waste on farmland: an actor-network interpretation, 29–43
Briggs, J., Badri, M. and Mekki, A.-M., Indigenous knowledges and vegetation use among bedouin in the Eastern Desert of

Charlesworth, S. M. and Foster, I. D. L., Sediment budgets and metal fluxes in two contrasting urban lake catchments in Coventry, UK, 199–210
Chen, X. and Zong, Y., Major impacts of sea-level rise on agriculture in the Yangtze delta area around Shanghai, 69–84

Dabi, D. D. and Anderson, W. P., Water use for commodity production in Katarko village, northern Nigeria, 105–22
Davie, T. J. A., A numerical model to quantify the growth of a canopy for a forest hydrology model, 45–67
Davies, J., *see* Nel, E.
Development implication of demographic trends and projections for an arid region: the case of the Badia Research and Development Project area of Jordan (Findlay and Maani), 283–98
Dottridge, J. and Abu Jaber, N., Groundwater resources and quality in northeastern Jordan: safe yield and sustainability, 313–23
Dutton, R. and Shahbaz, M., The Badia programme: defining and overcoming constraints on sustainable development, 275–81
Dutton, R., *see also* Millington, A. C.

Edwards, M., Wellens, J. and al-Eisawi, D., Monitoring the grazing resources of the Badia region, Jordan, using remote sensing, 385–98
Elliott, J., *see* Handmer, J.
Exploitation of an arid landscape by a pastoral society: the contemporary eastern Badia of Jordan (Rowe), 345–61

0143-6228/99/$ - see front matter © 1999 Elsevier Science Ltd. All rights reserved.
PII: S0143-6228(99)00018-1

Egypt, 87–103
Farming against the odds: an examination of the challenges facing farming and rural development in the Eastern Cape province of South Africa (Nel and Davies), 253–74
Findlay, A. and Maani, M., Development implication of demographic trends and projections for an arid region: the case of the Badia Research and Development Project area of Jordan, 283–98
Flooding and sustainable land–water management in the lower Baro–Akobo river basin, Ethiopia (Woube), 235–51
Foster, I. D. L., *see* Charlesworth, S. M.
Fresco, L., *see* Verburg, P. H.

Groundwater resources and quality in northeastern Jordan: safe yield and sustainability (Dottridge and Abu Jaber), 313–23

Handmer, J., Keys, C. and Elliott, J., Achieving lasting change in multi-organizational tasks: the case of flood warnings in Australia, 179–97

Indigenous knowledges and vegetation use among bedouin in the Eastern Desert of Egypt (Briggs et al.), 87–103

Keys, C., *see* Handmer, J.

Maani, M. *see* Findlay, A.
Major impacts of sea-level rise on agriculture in the Yangtze delta area around Shanghai (Chen and Zong), 69–84
McAllister, J. J., *see* Baptista Neto, J. A.
Mekki, A.-M., *see* Briggs, J.
Millington, A. C., al-Hussein, S. and Dutton, R., Population dynamics, socioeconomic change and land colonization in northern Jordan, with special reference to the Badia Research and Development Project area, 363–84
Millington, A. C., *see also* Tansey, K. J.
Monitoring the grazing resources of the Badia region, Jordan, using remote sensing (Edwards et al.), 385–98
Monitoring soil moisture dynamics using satellite imaging radar in northeastern Jordan (Tansey et al.), 325–44

Nel, E. and Davies, J., Farming against the odds: an examination of the challenges facing farming and rural development in the Eastern Cape province of South Africa, 253–74
Numerical model to quantify the growth of a canopy for a forest hydrology model (Davie), 45–67

Pacione, M., Applied geography: in pursuit of useful knowledge, 1–12
Pastoral mobility, sedentarization and accessibility of health services in the northeast Badia of Jordan (Spicer), 299–312
Phipps, A. G., Applications and effects of geographical research in two quasi-judicial hearings about land-use changes, 137–51
Population dynamics, socioeconomic change and land colonization in northern Jordan, with special reference to the Badia Research and Development Project area (Millington et al.), 363–384

Recycling urban waste on farmland: an actor-network interpretation (Bowler), 29–43
Robinson, D. A., Agricultural practice, climate change and the soil erosion hazard in parts of southeast England, 13–27
Rowe, A. G., The exploitation of an arid landscape by a pastoral society: the contemporary eastern Badia of Jordan, 345–61

Sediment budgets and metal fluxes in two contrasting urban lake catchments in Coventry, UK (Charlesworth and Foster), 199–210
Sedimentological evidence of human impact on a nearshore environment: Jurujuba Sound, Rio de Janeiro, Brazil (Baptista Neto et al.), 153–77
Shahbaz, M., *see* Dutton, R.
Simulation of changes in the spatial pattern of land use in China (Verburg et al.), 211–33
Smith, B. J., *see* Baptista Neto, J. A.
Spellman, G., An application of artificial neural networks to the prediction of surface ozone concentrations in the United Kingdom, 123–36
Spicer, N., Pastoral mobility, sedentarization and accessibility of health services in the northeast Badia of Jordan, 299–312

Tansey, K. J., Millington, A. C., Battikhi, A. M. and White, K. H., Monitoring soil

moisture dynamics using satellite imaging radar in northeastern Jordan, 325–44

Veldkamp, A., *see* Verburg, P. H.
Verburg, P. H., Veldkamp, A. and Fresco, L. O., Simulation of changes in the spatial pattern of land use in China, 211–33

Water use for commodity production in Katarko village, northern Nigeria (Dabi and Anderson), 105–22
Wellens, J., *see* Edwards, M.
White, K. H., *see* Tansey, K. J.
Woube, M., Flooding and sustainable land–water management in the lower Baro–Akobo river basin, Ethiopia, 235–51

Zong, Y., *see* Chen, X.
